

Syllabus documents for June 2022 examinations

This is a notice about the use of syllabus documents for the June 2022 examinations.

Cambridge International syllabuses for 2022 examinations were published at the end of 2019 prior to the change in the school calendar in Mauritius.

Therefore the year of examination on the front cover of syllabus documents will still state November even where it has been agreed that the syllabus will be available for examination in June 2022 for candidates from Mauritius.

If your current syllabus document states 2020-2022 or 2021-2023 on the front cover then you should continue to teach from this syllabus which will be valid for the June 2022 examinations for candidates from Mauritius.

If your current syllabus documents ends in 2021 then you will be provided with a new syllabus document for 2022 by the Mauritius Examinations Syndicate. Please refer to this document for the June 2022 examinations.
