

**Cambridge SC/HSC October/November 2022 Examinations
Physical Education 5016/02 and 9396/02 & 9396/04
Filmed Video Evidence**

Filmed video evidence should be recorded on DVD and be submitted in 2 copies. The DVD should be clearly labeled including the Subject Code/Name, School PSN/Name. Cambridge International recommends that the recordings be saved as MPEG (.mpg) or QuickTime movie (.mov).

Filmed videos should be recorded in HD – *High Definition* (at least at 720 dp) using a modern video file format. Producing filmed evidence which is either of low quality or fails to provide the right level of evidence to justify the marks awarded could potentially disadvantage candidates' results outcome.

Full/Part of the coursework (*as per requirements of the Syllabus*) comprises of video filming/ editing; it is imperative that a copy of these files be saved on external devices so that in case of any technical issues arising, a backup copy remains in custody.

(Filmed video evidence is considered to be a confidential examination material which should be stored safely under strict security conditions.)
