

## Cambridge IGCSE® and Cambridge O Level Travel & Tourism

Please follow these instructions carefully before completing the PDF *Individual Candidate Record Cards* provided below.

1. This form is an interactive PDF and may be completed in one of three ways:
  - on-screen and then printed out
  - on-screen and then printed out; add any internally moderated marks by hand
  - printed out and completed on paper by hand.

**Cambridge International recommends that, wherever possible, this form is completed on-screen. The form will add up the candidates' marks for you and eliminate the risk of calculation error.**

2. Additional copies of this form can be downloaded from the samples database [www.cambridgeinternational.org/samples](http://www.cambridgeinternational.org/samples).
3. To help you fill in the candidate names and numbers on this form, you may wish to ask your exams officer to follow the step-by-step guide that is available on the *Coursework Assessment Summary Form*.
4. Completing the *Individual Candidate Record Card*:
  - Complete the information at the top of the form.
  - Mark the coursework for each candidate according to the marking criteria in the syllabus booklet.
  - Enter the marks in the appropriate spaces.
  - If you are completing the form on paper by hand, add up the marks and write the total in the 'Total Mark' column. If you are completing the form on screen, the marks will be added up for you and the total will automatically appear in the 'Total Mark' column.
  - Include the details of the teaching group or set for each candidate. The initials of the teacher may be used to identify the group or set.
  - It is essential that the marks of candidates from different teaching groups within each centre are moderated internally.
  - In the column called 'Internally Moderated Mark', enter the total mark awarded after internal moderation has taken place.
  - Transfer the marks to the *Coursework Assessment Summary Form* in line with the instructions given on that document.
5. Both the teacher completing the form and the internal moderator should check the form and complete and sign the bottom portion.
6. **Please keep a copy of the *Individual Candidate Record Card(s)* for your records.**

Please read the previous printed instructions and the General Coursework Regulations before completing this form.

Centre Number						Centre Name	Exam Series		Year

Please use the space on the reverse for any comments about the project(s), marking and help given to the candidate beyond normal supervision. Comments are especially important where the marks awarded differ from what might have been expected on the sole evidence of the submitted material

Title(s) of project(s)

Mar	Max	Sec	1. Knowledge with understanding			2. Investigative skills and representation of evidence			3. Analysis and interpretation of evidence						4. Evaluation and conclusions		
						Observation and collection of evidence		Organisation and representation of results									
	3	1(a)				General application of knowledge with understanding											
	3	1(b)	Connection between key ideas of the course and the aims of the investigation														
	3	1(c)	Use of appropriate terminology and understanding of concepts and principles			Awareness of limitations of methods used to collect evidence			Level and extent of analysis						Suggestions and recommendations for improvement or future work		
	3	2(a)	Collection of evidence from both primary and secondary sources under guidance or independently														
	3	2(b)	Use of appropriate terminology and understanding of concepts and principles			Evidence recorded, classified and organised			Interpreting the evidence by presenting reasoned explanations for patterns and relationships shown in the analysis						Draw valid conclusions by reasoned consideration of evidence		
	3	2(c)	Awareness of limitations of methods used to collect evidence														
	3	2(d)	Use of appropriate terminology and understanding of concepts and principles			Evidence displayed accurately and using appropriate skills and techniques			Originality and individual opinion						Reference to original aims of the investigation in the conclusion		
	3	2(e)	Collection of evidence from both primary and secondary sources under guidance or independently														
	3	2(f)	Use of appropriate terminology and understanding of concepts and principles			Data displayed effectively, with a degree of neatness and good annotation			Draw valid conclusions by reasoned consideration of evidence								
	3	3(a)	Use of appropriate terminology and understanding of concepts and principles														
	3	3(b)	Use of appropriate terminology and understanding of concepts and principles			Different skills and techniques are used			General communication skills								
	3	3(c)	Use of appropriate terminology and understanding of concepts and principles														
	3	3(d)	Use of appropriate terminology and understanding of concepts and principles			Organisation of the analysis and interpretation			Awareness of the limitations of the evidence collected								
	3	3(e)	Use of appropriate terminology and understanding of concepts and principles														
	3	3(f)	Use of appropriate terminology and understanding of concepts and principles			Awareness of the limitations of the evidence collected			Evaluation of the investigation as a whole								
	3	3(g)	Use of appropriate terminology and understanding of concepts and principles														
	3	4(a)	Use of appropriate terminology and understanding of concepts and principles			Suggestions and recommendations for improvement or future work			Draw valid conclusions by reasoned consideration of evidence								
	3	4(b)	Use of appropriate terminology and understanding of concepts and principles														
	3	4(c)	Use of appropriate terminology and understanding of concepts and principles			Reference to original aims of the investigation in the conclusion											
	3	4(d)	Use of appropriate terminology and understanding of concepts and principles														

Please read the previous printed instructions and the General Coursework Regulations before completing this form.
