Specimen paper
for first assessment in October 2020

Acknowledgements:

The MES would like to place on record its gratitude and appreciation to all stakeholders who contributed to the development of the specimen assessment materials - the Educators (from the mainstream and extended stream), academics from the MIE, representatives of the Ministry of Education and HR, TE and SR and representatives of recognised unions - who, at different stages in the development of the assessment, have been members of technical committees, validation committees and Secondary School Examination Committees that were set up by the MES. We are also grateful to the Rectors, Educators and students who took part in the trialling process of the specimen papers. The contribution of all these stakeholders provided us with vital information and feedback which fed into the production of the specimen papers.

1. Background

At the end of the Nine-Year Continuous Basic Education (NYCBE) cycle, all students from the Regular and Extended programmes take the National Certificate of Education (NCE) Assessment. This assessment is in line with the philosophy defined in the National Curriculum Framework (NCF) Grades 7, 8 and 9 (MIE, 2016)¹ and the learning outcomes detailed in the Teaching and Learning Syllabus (MIE, 2017)².

The assessment will be carried out in the following subjects:

- English
- Mathematics
- French
- Science
- Information and Communication Technology
- Technology Studies
- Business and Entrepreneurship Education (BEE)
- Social and Modern Studies (SMS)
- Art and Design
- An optional core subject (Asian Languages, Arabic and Kreol Morisien, if chosen by the candidate)

A 7-point grading structure will be used in each subject, as illustrated below:

Numerical Grade	Marks
1	85 and above
2	75 and above but below 85
3	65 and above but below 75
4	55 and above but below 65
5	45 and above but below 55
6	35 and above but below 45
7	Less than 35

2. Purpose of the NCE Assessment

The main purpose of the NCE Assessment is to measure and certify learning that has taken place at the end of the NYCBE cycle. The information gathered from the assessment will be used for:

- Certification**

Meeting the minimum requirements on the NCE assessment (see the Award Rules in the Annual Programme) will lead to the candidate being conferred an NCE certificate which will be recognised at Level 2 on the National Qualifications Framework.

- Promotion to Grade 10**

Assessment results from the NCE will guide schools in determining whether students get promoted to Grade 10.

- Orientation**

The NCE assessment will provide information to guide students as to whether they want to continue in the general or in the technical/vocational stream. Within the general stream, it may guide students in their choice of subjects as from Grade 10.

- Admission to academies**

Performance in the NCE Assessment will determine whether candidates are admitted to academies. The following extract from the Education Act indicates the criteria for admission to academies:

Priority of admission to Grade 10 in an Academy shall be determined on the basis of the grade aggregate and the relative performance of the eligible pupil in the best 8 core subjects, including English, French and Mathematics, at the NCE assessment and the choice of the responsible party.

3. Guiding principles in Assessment

A number of key principles of assessment guided the development of the NCE assessment.

(i) Validity

Validity is a central concept in assessment. In simple terms, it refers to the extent to which an assessment measures what it is supposed to be measuring. Validity also refers to the extent to which the assessment is providing evidence of candidates' achievement levels. An assessment is considered valid if it meets its purposes. (Edwards et al, 2017)³

(ii) Reliability

Reliability, another crucial concept in assessment, refers to producing reliable, stable and consistent results over time. Ensuring reliability requires clear and consistent processes for the setting, marking and grading of the NCE assessment.

(iii) Impact

The NCE Assessment aims at having positive effects on teaching and learning with positive washback into the curriculum and into the educational system. An important consideration during the development of this assessment was the potential impact that it would have on the life chances of candidates, allowing for maximum inclusion and retention of students in the system while maintaining standards.

(iv) Fairness

Needs and characteristics of learners were considered in the design of the NCE assessment so as not to disadvantage any group or individual. Care has been taken to minimise cultural and gender biases and to accommodate the different abilities and the social, cultural and linguistic backgrounds of candidates.

4. Designing the NCE Kreol Morisien Assessment – The key considerations

On top of the fundamental assessment considerations spelt out in the previous section, the following key questions underpinned the design of the NCE Assessment for Kreol Morisien.

(Source: Cambridge Assessment English, 2018)

4.1 Official guidelines

To ensure that all the candidates are given a fair chance of showing they have acquired the necessary knowledge, skills and competencies, the paper has been designed with 50% of items at basic level, 20% at intermediate level and 30% of items at proficient level.

4.2 What will be assessed and how?

The NCE assessment in Kreol Morisien will assess the proficiency of candidates at the end of the NYCBE cycle in reading, writing, grammar, use of Kreol Morisien and in translation.

The tables below give a breakdown of the different learning areas, the kinds of tasks set and the marks allocated.

	Task	Mark Allocation
Reading (30 %)	Task 1 - Reading a short note or short notes, message, letter, poster or a short informative passage and locating explicit information.	10 marks
	Task 2 - Reading of an extended passage. Location of explicit and implicit information, vocabulary in context, personal response, synthesizing information, identifying main ideas, follow chronology of events.	20 marks

	Task	Mark Allocation
Writing (25%)	Task 1 – Functional Writing: a short note, e-mail or card (50-75 words)	10 marks
	Task 2 – Extended Writing. Narrative, argumentative or descriptive composition. 200-250 words.	15 marks

	Task	Mark Allocation
Grammar and Use of Target Language (35%)	Task 1 – Spelling, Punctuation, Grammar (MCQs, Open ended etc...)	15 marks
	Task 2 – Vocabulary (MCQs)	5 marks
	Task 3 – Proofreading task with mistakes identified.	5 marks
	Task 4 – Cloze Text	10 marks

	Task	Mark Allocation
Translation (10%)	Task 1 – Sentence-level translation. Five items to be translated from English and French to Kreol Morisien.	5 marks
	Task 2 – Translation of a short paragraph from English or French to Kreol Morisien	5 marks

4.3 Who will be assessed?

A major consideration in the conception of the paper was to cater for the entire ability range of the entire student population. This, in effect, meant designing a paper that would be fair to all students, whether from the extended stream or the mainstream, while ensuring that Grade 9 standards are maintained.

4.4 How will the assessment be beneficial for learners?

The NCE assessment in Kreol Morisien aims at being beneficial to learners in different ways. Firstly, it will encourage the teaching and learning of the key competencies and skills in Kreol Morisien. It will also provide feedback to learners and stakeholders in general about the overall proficiency level achieved. By assessing functional literacy through a series of authentic tasks, as well as assessing more traditional academic tasks, it aims at providing a firm grounding in Kreol Morisien as students progress through the system, whether they wish to continue to the academic stream or move to the technical/vocational stream.

5. The Paper Description

Question 1: **(15 marks)**

This question will assess knowledge of basic KM grammar, spelling and punctuation. Multiple-choice items, matching, fill-in-the blanks, ticking the right option and open ended items may all be set to elicit the required information from candidates.

Question 2: **(5 marks)**

This question will assess knowledge of basic vocabulary in KM in context. MCQ items will be set.

Question 3: **(5 marks)**

This question will assess candidates' ability to deal with grammar and spelling in context. A short paragraph containing grammatical and spelling mistakes will be set and candidates will be required to correct these mistakes.

Question 4: **(10 marks)**

This question will assess functional reading at a basic level. Candidates will be required to read a short note or short notes / letter / e-mail / poster / message and show understanding by locating explicit information from the given text(s).

Question 5A: **(5 marks)**

This task will be a closed Cloze Text. Candidates will be required to complete a text with 5 gaps using one suitable word to be chosen from a given list.

Question 5B: (5 marks)

This task will be an open Cloze Text. Candidates will be required to complete a text with 5 gaps using one suitable word. No list will be given.

Question 6: (10 marks)

This question will assess functional writing. Candidates will be required to write 50-75 words on a given task – writing a short note, e-mail, letter or card. They will be assessed on their ability to complete the task properly and their accurate use of KM.

Question 7A: (5 marks)

This question will assess candidates' ability to translate simple sentences from English and French into KM through MCQs.

Question 7B: (5 marks)

This question will assess candidates' ability to translate a short paragraph from English into the target language.

Question 8: (20 marks)

This question will assess candidates' ability to read an extended passage of a narrative or informative type. Candidates will be assessed, inter alia, on their ability to locate explicit information, make inferences, synthesise information, explain the meaning of words as used in the given context, follow the chronology of events, identify main ideas and offer personal response.

Question 9: (15 marks)

This question will assess candidates' ability to produce an extended piece of writing in 200 - 250 words. They will be required to write one composition out of a choice of a narrative, argumentative or descriptive topics.
